Recyclopedia: Trimmings, S*PeRM**K*T, and Muse & Drudge, Harryette Romell Mullen, 2006, 1555974562, 9781555974565. Three important poetry collections brought together under one cover by Harryette Mullen, author of Sleeping with the Dictionary if you turned down the media so I could write a book then you could look me up in your voluminous recyclopedia from Muse & Drudge. Recyclopedia shows the extraordinary development of Harryette Mullens career, in her books Trimmings, S*PeRM**K*T, and Muse & Drudge, all originally published in the 1990s and now available again to new readers. These prose poems and lyrics bring us into collision with the language of fashion and femininity, advertising and the supermarket, the blues and traditional lyric poetry. Recyclopedia is a major gathering of work by one of the most exciting and innovative poets writing in America today.

Eroticism and Art, Alyce Mahon, 2007, 0192807331, 9780192807335. From the surreal eroticism of Salvador Dali to the kitsch eroticism of Jeff Koons, erotic art has always inflamed opinion and, even today, such images are considered provocative, dangerous, and unwelcome in the public sphere. Now Alyce Mahon, the feisty Irish art historian, takes us on an imaginative and engaging tour of erotic art in all its forms, including painting, sculpture, video art, installation, performance art, and photography. Mahon explores eroticism from its most romantic to its most explicit: from Impressionist Paris where the naked body signaled the rise of a new, modern world, to the contemporary scene where artists use eroticism to address the politics of race, gender, and sexual orientation. The book examines some of the key movements and moments in modern art history: from the birth of Realism with Courbet in Paris, to the Surrealist subversion of taboo, to Nazi propaganda's use of the heroic nude, to the soft-porn of Pop art, to the vogue for carnality in contemporary art in Los Angeles, Paris, and London. Indeed, Mahon provides a concise history of art in the twentieth century through the lens of eroticism, offering original insights into works of art that do not sit easily within popular notions of taste and that have provoked controversy and calls for censorship. Her discussion includes the work of such European and American artists as Egon Schiele, Hans Bellmer, Robert Mapplethorpe, Nancy Goldin, Orlan, Franco B, and Annie Sprinkle. With over a hundred illustrations, including sixty-five in full color, here is a strikingly written and stimulating history of eroticism in modern Western art.

ESI 2010: Sources Technology and Process, Adam I. Cohen, G. Edward Kalbaugh, 2009, 0735584508, 9780735584501. Information that is crucial to your case can be stored just about anywhere—in Blackberries, on home computers, in cell phones, in voicemail transcription programs, on flash drives, in native files, in metadata... Knowing what you're looking for is essential, but understanding technology and data storage systems can literally make or break your discovery efforts—and your case. If you can't write targeted discovery requests, you won't get all the information you need. ESI Handbook: Sources, Technology and Process immediately helps you to: Fully grasp the complexities of data sources and IT systems as they relate to electronic discovery, including cutting-edge software tools that facilitate discovery and
litigation. Achieve a cooperative and efficient approach to conducting cost-effective ESI discovery. Employ sophisticated and effective discovery tools, including concept and contextual searching, statistical sampling, relationship mapping, and artificial intelligence--that help automate the discovery process, reduce costs and enhance process and information integrity. The essential companion to Electronic Discovery: Law and Practice, ESI Handbook: Sources, Technology and Process provides you with practical assistance through every stage of the eDiscovery process, including: Creating a legally compliant document retention policy Preserving ESI through litigation holds; identifying and interviewing key players Reviewing preservation memo Defining relevant ESI Identifying privacy or confidentiality issues Creating an eDiscovery plan Retaining eDiscovery vendors Meet and confer--presenting proposed discovery plan to judge and negotiate terms for search criteria and production and timing Rule 16 Scheduling Conference ESI processing Legal review Motions related to production of documents Use of ESI at trial ESI Handbook: Sources, Technology and Process is logically organized to enable easy reading - even on the most complex topics. It provides quick access to essential answers, while minimizing dependence on footnotes, endnotes, and other cumbersome annotations.

Tort, Paula Giliker, Silas Beckwith, 2011, 0414046080, 9780414046085. The title presents an accessible and current picture of the law of torts and is ideal for those approaching the subject for the first time. The text succinctly covers all the major concepts in the law of torts and clearly illustrates how they work in practice by reference to the major cases in this field and the main statutory provisions.

The Song of Songs and the Ancient Egyptian Love Songs, Michael V. Fox, 1985, 0299100901, 9780299100902. The End of the Nation State: The Rise of Regional Economies, Kenichi Mae, 1995, 0029233410, 9780029233412. Nation states, asserts the world-renowned business strategist Kenichi Ohmae, are dinosaurs waiting to die. In this profoundly important book Ohmae argues that not only have nation states lost their ability to control exchange rates and protect their currencies, but they no longer generate real economic activity. As a result, he maintains, they have "already" forfeited their role as critical participants in the global economy. Once efficient engines of wealth creation, nation states today have become inefficient engines of wealth distribution, whose fates are increasingly determined by economic choices made elsewhere. Ohmae contends that four great forces -- capital, corporations, consumers, and communication -- have combined to usurp the economic power once held by the nation state. In the first full-scale analysis of this global phenomenon, Ohmae explains exactly how communications now control the movement of capital and corporations across national borders, how demanding consumers determine the flow of goods and services, and how harmful government policies are increasingly disciplined by the actions of informed consumers, profit-seeking corporations, and currency markets. Old habits die hard and the habits of power die hardest of all. While governments cling to jingoistic celebrations of nationhood that place far more value on emotion-grabbing symbols than on the welfare of their citizens, Ohmae reveals that within their borders a revolution has been born. He documents how affluent economic zones forming natural
"business units" have arisen throughout the world, bringing real, concrete improvements in the quality of life. These new engines of prosperity, which Ohmae calls "region states," have emerged, for example, between San Diego and Tijuana, Singapore and parts of Malaysia and Indonesia, Silicon Valley and the Bay Area, and Hong Kong and the adjacent portion of the Chinese mainland. He describes how these region states, each inhabited by 5 to 20 million people, have closer links to other region states in the global economy than to their "host" nations, and constitute essential growing markets for the goods and services of global corporations. Ohmae concludes that the emergence of the region state changes deeply and forever the global logic that defines how corporations operate and how the governments of nation states understand their proper role in economic affairs. Managers and policymakers must remember that people came first, and borders came afterwards. This masterful analysis will redefine the workings of the global economy for generations to come.

The ‘Bellum Grammaticale’ and the Rise of European Literature, Erik Butler, 2010, 1409401987, 9781409401988. The now-forgotten genre of the bellum grammaticale flourished in the sixteenth- and seventeenth centuries as a means of satirizing outmoded cultural institutions and promoting new methods of instruction. Butler examines representations of language as war in texts written in Latin, French, and German; the study, by exploring the relationship between tradition and innovation, also illuminates the shift from a Latin-based understanding of learning to the acceptance of vernacular erudition and the emergence of national literatures.

Birthing from within: an extra-ordinary guide to childbirth preparation, Pam England, Rob Horowitz, 1998, 0965987302, 9780965987301. Here is a holistic approach to childbirth that examines this profound rite-of-passage, not as a medical event, but as an act of self-discovery. Exercises and activities such as journal writing, meditation, and painting will help mothers analyze their thoughts and face their fears during pregnancy. For use during birth, the book offers proven techniques for coping with labor pain without drugs, a discussion of the doctor or midwife’s role, and a look at the father’s responsibilities. Childbirth education should also include what do expect after the baby is born. Here are baby basics, such as how to bathe a newborn, how to get the little one to sleep, and tips for getting nursing off to a good start. Pregnancy, birth, and postpartum is a process of continuous learning and adjustment; Birthing From Within provides the necessary support and education to make each phase of birthing a rewarding experience.

Parties at War: Political Organization in Second World War Britain, Andrew Thorpe, 2009, 0199272735, 9780199272730. Political parties formed the cornerstone of the liberal democracy for which Britain claimed it was fighting in the Second World War. However, that conflict represented the most sustained challenge to the British party system during the twentieth century. War forced the suspension of normal electoral politics, and exerted considerable extra demands on the time and loyalties of party activists and organizers. This all posed a serious challenge to the Conservative, Labour and Liberal parties. Parties at War uses an unusually broad and deep range of records of the main political parties to explore
how they responded to the challenge of war. Extensive use of the local as well as the national-level papers of the major parties offers a fuller picture than ever previously attempted. Andrew Thorpe focuses on what parties actually did, at both local and national levels, to sustain their organization during the war. He assesses the varying impacts of war, not just on each of the parties, but also over time, and between the different regions and areas of Britain. Thorpe demonstrates how wartime struggles over organization had significance not just for the election of the first majority Labour government in 1945, but also for the longer-term development of 'party' in modern British politics.

The World of Rome: An Introduction to Roman Culture, Peter V. Jones, Keith C. Sidwell, 1997, 0521386004, 9780521386005. The World of Rome is an introduction to the history and culture of Rome for students at university and at school as well as for anyone seriously interested in the ancient world. It covers all aspects of the city SH its rise to power, what made it great and why it still engages and challenges us today. Frequent quotations from ancient writers and numerous illustrations make this a stimulating and accessible introduction to ancient Rome. The book is particularly designed to serve as a background to Reading Latin (CUP 1986).

Flirting with Disasters, Feana Sophia, 2010, 0982807104, 9780982807101. Flirting with Disasters is a book that provides practical illustrations of what can happen when we are led by our desires. Have you wanted something so bad that you were willing to do anything to have it? What if you could not afford it? Would you charge it anyway? Did you convince yourself that the piece of cake you are staring at is the last one on earth? Will you pick up the phone because your unhealthy love interest is on the other line? I am sure that some of us can relate to these situations. There must have been some time in our lives that we have lived out most if not all of these urges. We will study how our actions don't just affect us, but can affect the lives of others. Flirting can appear to be very subtle on the surface, but can often be very disastrous. Are you willing to lose everything for your temporary pleasures?

We do it for Jesus: Mother Teresa and her Missionaries of Charity, Edward Le Joly, 1998, 0195645618, 9780195645613. This book is an inside account of the life and works of Mother Teresa and her missionaries, in Calcutta and around the world, written by one of her closest spiritual adviser. This edition covers events leading up to and including her death and funeral in 1997.

Tractor Mac: Family Reunion, ., . Tractor Mac's friend, a steam engine named Iron Dave, introduces Tractor Mac to other red tractors that welcome him like a new family--but Tractor Mac's friends on the farm remind him that his real family is there at home at Stony Meadow Farm.

Kaywood's New 500 Intelligent Words and Definitions Dictionary: A Must for Students, writers, and Public Speakers, Prince Mack Kaywood, 2008, 0979427428, 9780979427428. This new Parallel View Publishing paperback is the incipient
of dictionaries where the words selected are palpable; in that they are words the editor literally observed were used most often by professionals in a wide variety of fields. The words contained in this dictionary are words immutably accepted and perceived by the masses as intelligent sounding words. Just in case you may think words aren't important. When Professor, award-winning author, and public speaker; Michael Dyson was asked by a CNN reporter, what was the key to his success; he simply answered by saying; "it was my vocabulary." In other words; it was his use of intelligent words that was crucial to his success. What must be understood is serendipity is not at play here. You cannot accidentally discover these words and achieve success. You have to approach this dictionary as if you were reading a fiction or non-fiction book-to the point that these words become a part of your vocabulary.

Healing: Christian Mandate, Mary Theresa Webb, Ph.D. , 2002, 0971418810, 9780971418813. Stories of Jesus, the Master Healer, with discussion questions.

The Secret Room, Beth Kanell , 2011, 0982664427, 9780982664421. "Things didn't add up. So they started to investigate. That's how we found the secret room, of course. The secret room at the north end of the cellar of the old North Upton Inn, with the boarded up entrance, the doorway so short we climbed into it with our heads bent down practically to our chests, and for a long moment I was afraid I'd be stuck in the doorway, my jeans dragging against the rough stonework and my sweatshirt getting absolutely filthy with more spiderwebs and dust. I pushed on in, and in the beam from Thea's flashlight, we both saw the numbers and the letters on the wall at the same moment. 'A code,' I breathed out, barely whispering. 'A code,' Thea agreed. At that moment, we both knew what we'd do next. Love for clues and solve the code. Of course" -- p. [4] of cover.

Trustee from the Toolroom, Nevil Shute , 2010, 0307474224, 9780307474223. Keith Stewart is a quiet and unassuming man called upon to undertake an extraordinary task. A skilled maker of miniature working models, he lives a modest life devoted to his hobby. But when his sister and her wealthy husband die in a shipwreck on a coral reef in the Pacific while trying to smuggle out of England their entire fortune in diamonds hidden in the keel of their yacht Keith becomes trustee for his orphaned niece. To save her from destitution he must travel halfway around the world and risk a long voyage in a small boat in inhospitable waters to recover her inheritance. In the course of his adventure-filled quest, a colorful and international cast of characters mobilize to help him, and this humble man discovers he has more friends and admirers than he could have dared to imagine.

Holy People, Holy Land: A Theological Introduction to the Bible, Michael Dauphinais, Matthew Levering , 2005,
The Bible doesn't come with a secret decoder ring, which means that it is left to church theologians to make sense of the Bible's many intricate and overlapping themes. Over the centuries, the church has identified several themes--such as love and covenant--that have helped the faithful to better understand a sometimes bewildering book. In Holy People, Holy Land, authors Dauphinais and Levering make the case that holiness--which they define as communion with God through love of neighbor--is the central theme of Scripture. Holy People, Holy Land will give any reader the tools to better understand Scripture by showing how a holy God desires to recreate his children in his image so that they too can be holy.

The Big Book of Reproducible Graphic Organizers: 50 Great Templates to Help Kids Get More Out of Reading, Writing, Social Studies & More, Jennifer Jacobson, Dottie Raymer, 1999, 0590378848, 9780590378840. Help students soar in reading, writing, social studies, science, math, and more with this giant collection of fun, easy-to-use graphic organizers. Includes 50 classroom-tested, reproducible templates along with simple how-tos and student samples. A great

Object-Oriented Data Structures Using Java, Nell Dale, Daniel Joyce, Chip Weems, 2011, 1449613543, 9781449613549. Continuing the success of the popular second edition, the updated and revised Object-Oriented Data Structures Using Java, Third Edition is sure to be an essential resource for students learning data structures using the Java programming language. It presents traditional data structures and object-oriented topics with an emphasis on problem-solving, theory, and software engineering principles. Beginning early and continuing throughout the text, the authors introduce and expand upon the use of many Java features including packages, interfaces, abstract classes, inheritance, and exceptions. Numerous case studies provide readers with real-world examples and demonstrate possible solutions to interesting problems. The authors' lucid writing style guides readers through the rigor of standard data structures and presents essential concepts from logical, applications, and implementation levels. Key concepts throughout the Third Edition have been clarified to increase student comprehension and retention, and end-of-chapter exercises have been updated and modified. New and Key Features to the Third Edition: -Includes the use of generics throughout the text, providing the dual benefits of allowing for a type safe use of data structures plus exposing students to modern approaches. -This text is among the first data structures textbooks to address the topic of concurrency and synchronization, which are growing in the importance as computer systems move to using more cores and threads to obtain additional performance with each new generation. Concurrency and synchronization are introduced in the new Section 5.7, where it begins with the basics of Java threads. -Provides numerous case studies and examples of the problem solving process. Each case study includes problem description, an analysis of the problem input and required output, and a discussion of the appropriate data
structures to use. -Expanded chapter exercises allow you as the instructor to reinforce topics for your students using both theoretical and practical questions. -Chapters conclude with a chapter summary that highlights the most important topics of the chapter and ties together related topics.

MANUFACTURING TECHNOLOGY VOL-II 2E, RAO. Meant for the second course on Manufacturing Technology i.e. Metal Cutting and Machine tools, the revision of this book has been done keeping in mind the requirements of students and teachers. Numerous new topics, solved and unsolved problems, multiple choice questions, have been added in the new edition. In all it is the most updated and comprehensive yet concise book on the subject. New to this edition Language is simple and style is very student friendly Provides step-by-step and comprehensive information to the reader. Has just the right balance between being both descriptive and analytical New in this edition: New chapter on Jigs and Fixtures (Chapter 14) Coverage on Coated Carbides (Chapter 2) Coverage on Transmission systems including the actuators used in the machine tools (In chapter 3) Coverage on major developments on Unconventional Machining including Water Jet Machining (In Chapter 11) Coverage of common measuring equipments in Metrology (In Chapter 15) Pedagogy: Solved Examples: 70 Chapter-end Exercise Questions: 323 Multiple Choice Questions: 170 Total Questions: 563

The Mind of Wall Street: A Legendary Financier on the Perils of Greed and the Mysteries of the Market, Leon Levy, Eugene Linden, 2009, 0786730153, 9780786730155. As stock prices and investor confidence have collapsed in the wake of Enron, WorldCom, and the dot-com crash, people want to know how this happened and how to make sense of the uncertain times to come. Into the breach comes one of Wall Street's legendary investors, Leon Levy, to explain why the market so often confounds us, and why those who ought to understand it tend to get chewed up and spat out. Levy, who pioneered many of the innovations and investment instruments that we now take for granted, has prospered in every market for the past fifty years, particularly in today's bear market. In The Mind of Wall Street he recounts stories of his successes and failures to illustrate how investor psychology and willful self-deception so often play critical roles in the process. Like his peers George Soros and Warren Buffett, Levy takes a long and broad view of the rhythms of the markets and the economy. He also offers a provocative analysis of the spectacular Internet bubble, showing that the market has not yet completely recovered from its bout of "irrational exuberance." The Mind of Wall Street is essential reading for all of us, whether we are active traders or simply modest contributors to our 401(k) plans, as volatile and unnerving markets come to define so much of our net worth.

Linear System Theory and Design, Third Edition, International Edition, Chi-Tsong Chen, 2009, 0195392078, 9780195392074. An extensive revision of the author’s highly successful text, this third edition of Linear System Theory and Design has been made more accessible to students from all related backgrounds. After introducing the fundamental properties of linear systems, the text discusses design using state equations and transfer functions. In state-space
design, Lyapunov equations are used extensively to design state feedback and state estimators. In the discussion of transfer-function design, pole placement, model matching, and their applications in tracking and disturbance rejection are covered. Both one-and two-degree-of-freedom configurations are used. All designs can be accomplished by solving sets of linear algebraic equations. The two main objectives of the text are to: 1. use simple and efficient methods to develop results and design procedures 2. enable students to employ the results to carry out design All results in this new edition are developed for numerical computation and illustrated using MATLAB, with an emphasis on the ideas behind the computation and interpretation of results. This book develops all theorems and results in a logical way so that readers can gain an intuitive understanding of the theorems. This revised edition begins with the time-invariant case and extends through the time-varying case. It also starts with single-input single-output design and extends to multi-input multi-output design. Striking a balance between theory and applications, Linear System Theory and Design, 3/e, is ideal for use in advanced undergraduate/first-year graduate courses in linear systems and multivariable system design in electrical, mechanical, chemical, and aeronautical engineering departments. It assumes a working knowledge of linear algebra and the Laplace transform and an elementary knowledge of differential equations.

Crankee Doodle, Tom Angleberger , 2013, 0547818548, 9780547818542. Yankee Doodle went to town / a-riding on a pony / stuck a feather in his hat / and called it macaroni. Many know the song Yankee Doodle Dandy, but few understand it. This unapologetically silly picture book reveals that the legendary ride to town (and the whole macaroni thing) was all suggested by Mr. Doodle's overeager pony. This just makes Mr. Doodle cranky: I do not want macaroni. I do not want a feather. I do not want any other clothing, any other pasta, or any other parts of a bird. I do not want anything that they have in town! A historical note ends this colorful, comical take on a nonsensical old song.

I Can Build a House!, Shigeo Watanabe , 1985, 0399210415, 9780399210419. Bear perseveres until he finds just the right material for building the perfect house.

I Am a Gymnast, 2000, 0375802517, 9780375802515. With more than 75 color and black-and-white photos, and published just in time for the summer 2000 Olympics," I Am a Gymnast portrays the excitement and dedication of a very young athlete with a dream. Girls and gymnastics fans of all ages will be thrilled to follow 8-year-old McKenzie Foster as she trains with international champion and coach Wendy Hilliard; performs at Rockefeller Center; is interviewed on live TV; and meets her idols, famed Olympic coach Bela Karolyi and Olympic gold medalists Shannon Miller and Dominique Dawes.

A Pig Called Pete, Alan Bowater, 2007, 0980283663, 9780980283662. Ages 4 to 8 years. This book has great illustrations and dialogue targeted at younger children, as they follow Pete the Pig when he flies around the world. The lesson for children from this great little story is that their imagination can go a long, long way. . . even around the world!

Policy Creation and Evaluation: Understanding Welfare Reform in the United States, Richard Hoefer, 2012, 0199735190, 9780199735198. Although practitioners do not often identify an explicit focus on social welfare policy, the analysis (what it is) and evaluation (what it does) of policy is basic to social work practice. This unique pocket guide presents a case study on one of the most important domestic policy decisions in the post-WWII era, the passage of the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996. This law ended welfare as we knew it by creating the Temporary Assistance to Needy Families (TANF) program and closing the Aid to Families with Dependent Children program. Examining the law through three decision-making models assists readers in understanding TANF's historical antecedents, its political and power implications, and the way in which it meets social and economic goals. Individual chapters demonstrate how programs such as TANF are evaluated and the methods that can be used, such as primarily qualitative, primarily quantitative, and mixed methods evaluation techniques. Illustrating the advantages and disadvantages of each approach for evaluation, Hoefer makes use of the numerous studies undertaken in the thirteen years since welfare reform and its 2006 reauthorization. Part history text, readers will also learn about the details of the TANF legislation creation and evaluation, but will finish with a greater understanding of the policy creation and evaluation processes. This pocket guide will be useful to researchers and students of advanced social policy who seek to understand the two stages of policy-making, to develop policy, or to describe the impact of social policy on social problems.

Helen of Pasadena, Lian Dolan, 2010, 0984410244, 9780984410248. Helen Fairchild leads a privileged Pasadena existence: married to a pillar of the community; raising a fine, water polo-playing son; volunteering on the most fashionable committees. It only bothers Helen a tiny bit that she has never quite fit in proper Pasadena for lots of little
reasons. And then, out of nowhere, along comes a Rose Parade float, killing her philandering husband and leaving Helen broke, out of her beloved home and scrambling to salvage her once-rarefied existence. Enter Dr. Patrick O'Neill, noted archaeologist, excavator of Troy and wearer of nubby sweaters, and Helen's new boss. Distracted by her incredibly attractive boss, Helen teeters in to her new life which teems with characters. While uncovering secrets about ancient Troy alongside Patrick, Helen discovers more: a new sense of self and a new love. With it's keen social observations, laugh-out-loud scenes and whip-smart dialogue, Helen of Pasadena reads like a roman clef and unfolds like a romantic comedy. Along the way, this novel delivers humor, insight and wisdom on reinventing yourself.

A Strong Night Wind, Jack Wright, 1995, 0964625415, 9780964625419. A STRONG NIGHT WIND takes you on a journey through twenty-five years of paintings by Donald Roller Wilson. 187 color illustrations are included while Roller writes the text for the book, giving you an in-depth understanding of what his "stories" & characters are all about. Robin Williams writes that Roller's work is like "a cross between William Faulkner & Dr. Seuss with a bit of the old testament. A biblical baklava, layered with allegory & imagery. It all adds up to the big picture, where Cookie the chimp & Miss Dog America see the writing in the sky." The book is available in a standard version & limited edition for $70.00 & $800.00, respectively, from Wright Publishing, 351 Worth Ave., Palm Beach, FL 33480, 1-800-554-6279.

Molly Takes Ballet, Stan Rogers, 2000, 0970466501, 9780970466501. After moving with her family to Philadelphia, Molly makes friends with Amanda and Alan who take ballet lessons. Molly begins a ballet class herself and is introduced to the many French ballet terms.

The Avamedha: The Rite and Its Logic, Subhash Kak, 2002, 8120818776, 9788120818774. This book describes the ASVAMEDHA rite and its symbolism to explain distinctive aspects of the Vedic sacrifice system. Several questions related to the Asvamedha are posed and answered in the context of Vedic epistemology. This rite has three important functions: (i) it presents and equivalence of the naksatra year to the heaven, implying that it is rite that celebrates the rebirth of the Sun; (ii) it is symbolic of the conquest of Time by the king, in whose name the rite is performed; and (iii) it is celebration of social harmony achieved by the transcendence of the fundamental conflicts between various sources of power. Numbers from another Vedic rite, the Agnicayana; help in the understanding of several of its details.

Even after a mere two years, it is possible to form a reasonably clear impression as to what are likely be the ultimate consequences of the ECHR being made part of our domestic law. It is already obvious that the result will be changes, significant changes, to our constitutional arrangements. Lord Woolf, Lord Chief Justice of England and Wales, The Human Rights Act 1998 brought the European Convention on Human Rights into British law. Since this important, constitutional Act came into force it has had a momentous impact on our legal system. For example:

- Challenges to the human rights compatibility of primary legislation have led to the amendment of Acts of Parliament (for instance the Mental Health Act);
- Significant areas of criminal law have been reviewed - including some statutory presumptions and assumptions (for example on the possession of drugs);
- The test for judicial review in human rights cases has been substantially altered;
- The right to life has been used to improve coroners' inquests but has not been held to grant a right to die;
- The competing rights of privacy and freedom of expression have been instrumental in determining cases where celebrities have tried to prevent newspapers publishing stories about them.

The third edition puts these recent developments in context and provides an up to date introduction to the Act and Convention. Building on the best-selling previous editions, the new guide has been extensively rewritten for even greater ease of use.

Blackstone's Guide to the Human Rights Act 1998: provides a clear, concise explanation of how the Human Rights Act 1998 has been applied; summarises the interpretative techniques that lawyers need to understand; outlines the scope of the Convention articles and highlights key domestic cases on relevant rights; details further sources for research on domestic and Strasbourg human rights jurisprudence. No practitioner, law teacher or student should be without this very affordable guide. All royalties from sales are donated to Liberty's work in protecting civil liberties and promoting human rights.

Rutter's Child and Adolescent Psychiatry, Sir Michael Rutter, Dorothy Bishop, Daniel Pine, Steven Scott, Jim S. Stevenson, Eric A. Taylor, Anita Thapar, 2011, 1444358715, 9781444358711. Rutter's Child and Adolescent Psychiatry has become an established and accepted textbook of child psychiatry. Now completely revised and updated, the fifth edition provides a coherent appraisal of the current state of the field to help trainee and practising clinicians in their daily work. It is distinctive in being both interdisciplinary and international, in its integration of science and clinical practice, and in its practical discussion of how researchers and practitioners need to think about conflicting or uncertain findings. This new edition now offers an entirely new section on conceptual approaches, and several new chapters, including: neurochemistry and basic pharmacology, brain imaging, economics, psychopathology in refugees and asylum seekers, bipolar disorder, attachment disorders, statistical methods for clinicians. This leading textbook provides an accurate and comprehensive account of current knowledge, through the integration of empirical findings with clinical experience and practice, and is essential reading for professionals working in the field of child and adolescent mental health, and clinicians working in general practice and community pediatric settings.

What Is This Thing Called Happiness?, Fred Feldman, 2010, 0199571171, 9780199571178. According to an ancient and still popular view -- sometimes known as 'eudaimonism' -- a person's well-being, or quality of life, is ultimately determined by his or her level of happiness. According to this view, the happier a person is, the better off he is. The doctrine is controversial in part because the nature of happiness is controversial. In What Is This Thing Called Happiness? Fred Feldman presents a study of the nature and value of happiness. Part One contains critical discussions of the main philosophical and psychological theories of happiness. Feldman presents arguments designed to show that each of these theories is problematic. Part Two contains his presentation and defense of his own theory of happiness, which is a form of attitudinal hedonism. On this view, a person's level of happiness may be identified with the extent to which he or she takes pleasure in things. Feldman shows that if we understand happiness as he proposes, it becomes reasonable to suppose that a person's well-being is determined by his or her level of happiness. This view has important implications not only for moral philosophy, but also for the emerging field of hedonic psychology. Part Three contains discussions of some interactions between the proposed theory of happiness and empirical research into happiness.

The Voluntourist: A Six-Country Tale of Love, Loss, Fatherhood, Fate, and Singing Bon Jovi in Bethlehem, Ken Budd, 2012, 006194646X, 9780061946462. VOLUNTOURIST n. 1. A guy who attempts to save the world in an attempt to save himself. 2. Someone who can only do it two weeks at a time. When Ken Budd was thirty-nine, his father collapsed after eighteen holes of golf. Ken and his wife raced to the hospital but it was too late. In the weeks that followed, as grieving friends revealed how his father had changed their lives, Ken started questioning his own life and admitting, after years of denial, that he and his wife would never have children. And then, still struggling with grief his grief at losing his father, his grief at not being a father Ken received an e-mail with the subject line: "Katrina Relief Volunteer Opportunities." He signed up. He went to New Orleans. And he kept volunteering: Costa Rica, to teach English; China, to work with special-needs children; Ecuador, to study climate change; the West Bank, to assist refugees; Kenya, to care for orphans. His goal: to find purpose by helping others, one trip at a time. Wry, funny, and heartbreakingly honest, The Voluntourist will linger in your mind long after you've turned the last page.

Architecture and Interpretation: Essays for Eric Fernie, Jill Franklin, T. A. Heslop, Christine Stevenson, 2012, 1843837811, 9781843837817. Architecture affects us on a number of levels. It can control our movements, change our
experience of our own scale, create a particular sense of place, focus memory, and act as a statement of power and
taste, to name but a few. Yet the ways in which these effects are brought about are not yet well understood. The aim of
this book is to move the discussion forward, to encourage and broaden debate about the ways in which architecture is
interpreted, with a view to raising levels of intellectual engagement with the issues in terms of the theory and practice of
architectural history. The range of material covered extends from houses constructed from mammoth bones around
15,000 years ago in the present-day Ukraine to a surfer's memorial in Carpinteria, California; other subjects include the
young Michelangelo seeking to transcend genre boundaries; medieval masons' tombs; and the mythographies of early
modern Netherlandish towns. Taking as their point of departure the ways in which architecture has been, is, and can be
written about and otherwise represented, the editors’ substantial Introduction provides an historiographical framework
for, and draws out the themes and ideas presented in, the individual contributors' essays. Contributors: Christine

My Name Was Judas, C. K. Stead, 2007, 0099501384, 9780099501381. We all know the story of Jesus told by Matthew,
Mark, Luke and John, but what about the version according to Judas? Judas's name became synonymous with betrayer,
but is that how he saw it himself? In this witty, original and teasingly controversial version, recounted some forty years
after the death of Jesus, Judas finally tells the story as he remembers it. Looking back on his childhood and youth from
an old age the gospel writers denied him, Judas recalls his friendship with Jesus; their schooling together; their families;
the people who would go on to be disciples and followers; their journeys together and their dealings with the powers of
Rome and the Temple. His is a story of friendship and rivalry, of a time of uncertainty and enquiry, a testing of belief,
endurance and loyalty. With his richly painted backdrop of ancient Palestine, Stead goes beyond the boundaries of the
story known to us all and convincingly enters the mind of one of its key players. This bold novel, with its wonderfully
clear narrative prose, is fresh, provocative and compelling.

How to Bicycle to the Moon to Plant Sunflowers: A Simple But Brilliant Plan in 24 Easy Steps, Mordicai Gerstein, 2013, 1596435127, 9781596435124. In this simple, step-by-step instructional picture book, learn how you too can visit the moon on your bicycle! All you need is a very long garden hose, a very large slingshot, a borrowed spacesuit, and a bicycle . . . and plenty of imagination. With tongue firmly in cheek, Caldecott Medal winner Mordicai Gerstein outlines the steps needed in glorious comic book-style panels and a deadpan voice, leaving nothing out: the food you'll eat, how to deal with loneliness in space, how to water those sunflower seeds once they're planted—even how to deal with the media attention back home after a successful trip. An inspired work of whimsy, How to Bicycle to the Moon to Plant Sunflowers is a spacefaring adventure for daydreamers and a starter kit for the imagination. A Kirkus Reviews Best Book of 2013

The Arc and the Machine: Narrative and the New Media, Caroline Bassett, 2007, 0719073421, 9780719073427. The Arc and the Machine is a timely and original defense of narrative in an age of information. Stressing interpretation and experience alongside affect and sensation it convincingly argues that narrative is key to contemporary forms of cultural production and to the practice of contemporary life. Re-appraising the prospects for narrative in the digital age, it insists on the centrality of narrative to informational culture and provokes a critical re-appraisal of how innovations in information technology as a material cultural form can be understood and assessed.

Stages: An Autobiography, Jay Osmond, 2013, 1937458164, 9781937458164. Jay Osmond is a consummate
entertainer. The youngest original member of the Osmond Brothers, he was widely known as the endearing little boy with the toothless grin on The Andy Williams Show. Fifty years, 30 gold albums, and 77 million records later, Jay opens up about his personal life and longstanding career in this heartfelt autobiography. Jay's public persona is confident, adventurous, and strong. But his close friends also know his vulnerable side, captured on the pages of this book. He is warm, sensitive, and focused on bringing happiness to others through his music. These qualities, along with his quick wit, have allowed him to cope with and overcome the challenges of life in and out of show business. Jay Osmond has been in the entertainment industry for over fifty years. While he is primarily known for his singing, he is a talented drummer who was voted by Flip Magazine as one of the top ten drummers in the United States. In 1972, Jay shared the lead with brother Merrill on Crazy Horses, which became the Osmonds bestselling single overseas; it remains a fan favorite to this day. Jay has produced numerous television specials and is a solo drum artist, but he spends most of his time as a member of The Osmond Brothers. Terri worked as an administrative assistant with the Michigan Public School system for 32 years. She is now the web administrator for two Michigan Public School Districts and works with The Osmond Brothers. Terri is now working on a second book with Jay Osmond.

The Third Domain, Tim Friend, 2007, 0309102375, 9780309102377. The Third Domain is the untold story of how the discovery of a new form of life -- first ridiculed, then ignored for the past thirty years by mainstream scientists -- is revolutionizing science, industry, and even our search for extraterrestrial life. Classification is a serious issue for science: if you don't know what you're looking at, how can you interpret what you see? Starting with Carolus Linnaeus in the 17th century, scientists have long struggled to order and categorize the many forms of life on Earth. But by the early 20th century the tree of life seemed to have stabilized, with two main domains of life at its roots: single-celled and multi-celled organisms. All creatures fit into one of these two groups. Or so we thought. But in 1977, a lone scientist named Carl Woese determined that archaea -- biochemically and genetically unique organisms that live and thrive in some of the most inhospitable environments on Earth -- were a distinct form of life, unlike anything seen on Earth before. This shocking discovery was entirely incompatible with the long-standing classification of life as we know it. But as it turned out, archaea were not life as we know it, and the tree of life had to be uprooted once again. Now, archaea are being
hailed as one of the most important scientific revelations of the 20th century. The Third Domain tells the story of their strange potential and investigates their incredible history to provide a riveting account of an astonishing discovery.

*Lessons from America: Liberal French Nobles in Exile, 1793-1798, Doina Pasca Harsanyi*, 2010, 0271036370, 9780271036373. Every war has refugees; every revolution has exiles. Most of the refugees of the French Revolution mourned the demise of the monarchy. Lessons from America examines an unusual group who did not. Doina Pasca Harsanyi looks at the American experience of a group of French liberal aristocrats, early participants in the French Revolution, who took shelter in Philadelphia during the Reign of Terror. The book traces their path from enlightened salons to revolutionary activism to subsequent exile in America and, finally, back to government posts in France—illuminating the ways in which the French experiment in democracy was informed by the American experience.

Russian Peasant Women, Beatrice Farnsworth, Lynne Viola, 1992, 0195066944, 9780195066944. Bringing together recent scholarship on Russian peasant women's history from the nineteenth and twentieth centuries, this book covers such topics as family life in the countryside, woman's work, her sexuality, her marital and family positions, her experience of the Bolshevik Revolution, and her role in collectivization of agriculture from its onset in the Stalin years through the Gorbachev era. Placing the peasant woman within the context of the peasant household and integrating, rather than separating out, the female experience in Russian rural society, these essays contribute to a greater understanding of the development of Russian peasant society as a whole. A pioneering work of social history, this collection is essential for all interested in Russian and women's history.

The Diary of an Artillery Officer: The First Canadian Divisional Artillery on the Western Front, Arthur Hardie Bick, 2011, 1459700406, 9781459700406. In the First World War the Canadian Field Artillery led the way in artillery technology and tactics. By coordinating the intelligence reports from sound ranging, flash spotting, and ground observation teams, they became one of the most effective fighting units in France. These tactics were first used at Vimy Ridge in April 1917, destroying most of the German artillery before the assault began. The close coordination between the attacking infantry divisions and the Canadian Field Batteries not only allowed the infantry to advance very close to the falling shells but also gave them confidence that, unlike at the Battle of the Somme, the Germans wouldn't be able to recover in time to defend their positions properly. The Diary of an Artillery Officer, written by Major Arthur Hardie Bick, DSO, covers the work of the 1st Divisional Artillery in 1918 when it spearheaded the attacks on Amiens, the Vis en Artois Switch (defending the Hindenburg Line) and the Canal du Nord, and the final blows in Germany's defeat.

Wrath of God, Jack Higgins, 2011, 0007290586, 9780007290581. A story of passion and heroism from a violent land Mexico in the 1920s... ...a place and a time when life was cheap and survival was for those who fought dirtiest. A year after the Revolution, violent unrest still simmers across rural Mexico. In the northern foothills of the Sierra Madre, the country's most renowned assassin turned psychotic bandit has dispensed with any need for rules. Plenty of men had tried to take Tomas de la Plata. But never another trained killer, who is fighting to escape the death sentence. Emmet Keogh fled a bitter war in Ireland, only to find himself halfway across the world and on the wrong side of the law. Now he has a choice. To kill the most dangerous man in Mexico or face death by firing squad.

Before the Nation: Muslim-Christian Coexistence and its Destruction in Late-Ottoman Anatolia, Nicholas Doumanis, 2012, 019163803X, 9780191638039. It is common for survivors of ethnic cleansing and even genocide to speak nostalgically about earlier times of intercommunal harmony and brotherhood. After being driven from their Anatolian homelands, Greek Orthodox refugees insisted that they 'lived well with the Turks', and yearned for the days when they worked and drank coffee together, participated in each other's festivals, and even prayed to the same saints. Historians have never showed serious regard to these memories, given the refugees had fled from horrific 'ethnic' violence that appeared to reflect deep-seated and pre-existing animosities. Refugee nostalgia seemed pure fantasy; perhaps contrived to lessen the pain and humiliations of displacement. Before the Nation argues that there is more than a grain of truth to these nostalgic traditions. It points to the fact that intercommunality, a mode of everyday living based on the accommodation of cultural difference, was a normal and stabilizing feature of multi-ethnic societies. Refugee memory and other ethnographic sources provide ample illustration of the beliefs and practices associated with intercommunal living, which local Muslims and Christian communities likened to a common moral environment. Drawing largely from an oral archive containing interviews with over 5000 refugees, Nicholas Doumanis examines the mentalities, cosmologies, and value systems as they relate to cultures of coexistence. He furthermore rejects the commonplace assumption that the empire was destroyed by intercommunal hatreds. Doumanis emphasizes the role of state-perpetrated political violence which aimed to create ethnically homogenous spaces, and which went some way in transforming these Anatolians into Greeks and Turks.

From Slaves to Squatters: Plantation Labor and Agriculture in Zanzibar and Coastal Kenya, 1890-1925, Frederick Cooper, 1997, 0435074202, 9780435074203. Cooper's subtle and seminal work examines the critical decades of transition from a slave-based plantation system in East Africa to a colonial economy based on wage labor. While British officials hoped to create an efficient and productive class of agrarian workers, the original Arab and Swahili landlords and slaveowners tried to redefine their old mechanisms of domination in order to maintain them. Yet the ex-slaves themselves had a quite different agenda: to acquire access to land on their own terms, and to shape their own working conditions. The processes of interaction and struggle among these three groups shaped the outlines of social and economic development along the Swahili coast through the remainder of the twentieth century. Cooper's comparative analysis is penetrating, and his book retains a central position in historical scholarship.

The Last General, Ben B. Walton, 2012, 0982272634, 9780982272633. The Last General is the story of General Robert Tyler, for whom Fort Tyler, in West Point, Georgia--the last Confederate fort captured by Union soldiers in the Civil War--is named. Tyler, critically injured in battle, was sent to West Point to recuperate. This work of creative nonfiction provides a close-up view of a dedicated military man and how some ordinary citizens and injured soldiers experienced the war. No matter what side they take, readers will root for Tyler's recovery as the town prepares for the hard-fought Battle of West Point.

Affirming Students' Right to their Own Language: Bridging Language Policies and Pedagogical Practices, Jerrie Cobb Scott, Dolores Y. Straker, Laurie Katz, 2008, 0203866983, 9780203866986. A Co-publication of the National Council of Teachers of English and Routledge. How can teachers make sound pedagogical decisions and advocate for educational policies that best serve the needs of students in today's diverse classrooms? What is the pedagogical value of providing culturally and linguistically diverse students greater access to their own language and cultural orientations? This landmark
volume responds to the call to attend to the unfinished pedagogical business of the NCTE Conference on College Composition and Communication 1974 Students Right to Their Own Language resolution. Chronicling the interplay between legislated/litigated education policies and language and literacy teaching in diverse classrooms, it presents exemplary research-based practices that maximize students’ learning by utilizing their home-based cultural, language, and literacy practices to help them meet school expectations. Pre-service teachers, practicing teachers, and teacher educators need both resources and knowledge, including global perspectives, about language variation in PreK-12 classrooms and hands-on strategies that enable teachers to promote students use of their own language in the classroom while also addressing mandated content and performance standards. This book meets that need. Visit http://www.ncte.org for more information about NCTE books, membership, and other services.

Plastic and Reconstructive Surgery, Henk Giele, Oliver Cassell, 2008, 0192632221, 9780192632227. Plastic and Reconstructive Surgery has been designed to provide succinct information to plastic surgeons of all levels of experience and trainees in partner specialties. The layout is contemporary with the concise information laid out in a readable style. There are descriptions of important operations and techniques with space to add the reader's own notes. It provides an up-to-date record of current practice for each reader in a compact and easily transportable format. Uniquely for this class of book there are over one hundred and fifty illustrations conveying key anatomical points and operative detail. This is ideal either as a refresher or to revise essential facts. For medical students with a short attachment to, and junior doctors in, plastic surgery, this book will provide all the information they will need to know, including all relevant aspects related to the surgical syllabus on which they may be examined. In addition there is practical information on the emergency care of plastic surgery and burns patients. There is comprehensive advice for the ward management of patients both pre- and post- surgery. For a specialist trainee, the book acts as the ideal revision text, covering the whole field of plastic surgery. It has been designed to act as a summary of the important points examined in the plastic surgery FRCS exam. For a consultant there are easily accessible facts, particularly on staging and survival data, which allows them to keep abreast of the current level of knowledge of their juniors. There are enlarged sections on hand surgery and lower limb trauma, relevant to all orthopaedic trainees. The flap section is also expanded and relevant to a variety of specialties.

A Shining Affliction: A Story of Harm and Healing in Psychotherapy, Annie G. Rogers, 1996, 0140240128, 9780140240122. As a young psychology intern, Annie Rogers writes these words about her severely disturbed patient Ben, a five-year-old boy who has already seen a lifetime of trouble - orphaned as a baby, then fostered out to a family who forgot him in his crib when they fled a household fire. Now he talks with screams and punches, and only Annie can manage to draw him out with her infinitely skillful and intuitive play therapy. Listening with almost superhuman attention to the story his play reveals, she picks out the abandonment and fear that echo in his every movement, and slowly
teaches him to trust and to love. But as Ben begins to explore the trauma of his past through his relationship with Annie, she finds herself being drawn downward into her own mental anguish.

If he can't be the star, he can still get the audience's attention by reacting to everything Peter Rabbit does. But how will Tommy's mother and teacher react to his performance?

*Audubon's Elephant: America's Greatest Naturalist and the Making of The Birds of America*, Duff Hart-Davis, 2005, 0805077758, 9780805077759. "Well-written. The picture emerges of a complex personality . . . a failure at several businesses but an astute judge of people . . . always happiest when roaming the woods and fields, and painting." -David Allen Sibley (author of The Sibley Guide to Birds), The Boston Globe Audubon's Elephant was the name given to John James Audubon's greatest work, The Birds of America-a folio of 435 life-size ornithological prints that would prove the most enduring depiction of birdlife in the United States. In 1826, still hard at work, his ambition threatened to exhaust the largesse of American aficionados and, seeking funds and fame, Audubon made his first trip to England. British naturalist Duff Hart-Davis tells how Audubon's exotic woodsman's charm and astonishing artistic gift won him the
attention of the aristocracy and an admiring public at a time when Americans in Britain could still cause a stir. Ultimately, his impassioned presentations to rooms full of smitten bird lovers helped him raise the funds he needed to complete The Birds of America. Lavishly illustrated with images from Audubon's life and work, Audubon's Elephant is an inspired depiction of the most important chapter in the life of America's most famous naturalist. Duff Hart-Davis, himself a naturalist, has written a lively, highly engaging biography of Audubon's heady and memorable days as a great American artist abroad.

Power Verbs for Career Consultants, Coaches, and Mentors: Hundreds of Verbs and Phrases to Get the Best Out of Your Employees, Teams, and Clients, Michael Lawrence Faulkner, 2013, 0133154068, 9780133154061. Use power verbs to make all your personal interactions dynamic, impactful, and memorable - and get the results you want! --Master words and phrases that will help you get more out of people in all your coaching and mentoring relationships-Concise, easy-to-use, and packed with examples anyone can use-An indispensable resource for every manager or professional who needs to cultivate another's performance.If you're responsible for influencing another's performance, every word matters. But some words matter most of all: verbs. Verbs are the catalysts of sentences. They bring communication to life - whether it's written or spoken. The right 'power verbs' make your interactions and advice more memorable, impactful, and dynamic. Conversely, if you use dull and uninteresting verbs, your words will fall on deaf ears, and you'll never help your clients reach their full potential. Now, in Power Verbs for Career Consultants, Coaches, and Mentors, communications expert and business professor Dr. Michael Faulkner shows you exactly how to choose action-packed verbs that electrify your coaching, mentoring, and consulting communications, and attract your audiences like moths to a flame. Packed with hundreds of verbs and phrases, this concise, easy-to-use guide reveals why certain verbs are so much more powerful, and provides sample sentences showing you exactly how to use them. Using Faulkner's verbs and real-world examples, you can consistently get the results you want - and empower others to achieve their most important goals.

Multiple Regression with Discrete Dependent Variables, John G. Orme Professor of Social Work University of Tennessee, Terri Combs-Orme Professor of Social Work University of Tennessee, 2009, 0199716293, 9780199716296. Most social work researchers are familiar with linear regression techniques, which are fairly straightforward to conduct, interpret, and present. However, linear regression is not appropriate for discrete dependent variables, and social work research frequently employs these variables, focusing on outcomes such as placement in foster care or not; level of severity of elder abuse or depression symptoms; or number of reoffenses by juvenile delinquents in the year following adjudication. This book presents detailed discussions of regression models that are appropriate for a variety of discrete dependent variables. The major challenges of such analyses lie in the non-linear relationships between independent and dependent variables, and particularly in interpreting and presenting findings. Clear language guides the reader briefly through each step of the analysis, using SPSS and result presentation to enhance understanding of the important link function. The book begins with a brief review of linear regression; next, the authors cover basic binary logistic regression, which provides a foundation for the other techniques. In particular, comprehension of the link function is vital in order to later interpret these methods’ results. Though the book assumes a basic understanding of linear regression, reviews and definitions throughout provide useful reminders of important terms and their meaning, and throughout the book the authors provide detailed examples based on their own data, which readers may work through by accessing the data and output on companion website. Social work and other social sciences faculty, students, and researchers who already have a basic understanding of linear regression but are not as familiar with the regression analysis of discrete dependent variables will find this straightforward pocket guide to be a terrific boon to their bookshelves. Work for Money, Design for Love: Answers to the Most Frequently Asked Questions About Starting and Running a Successful Design Business, David Airey, 2012, 0133052753, 9780133052756. Unlike other dry business books, this refreshing, straightforward guide from Logo Design Love author and international designer David Airey answers the questions all designers have when first starting out on their own. In fact, the book was inspired by the many questions David receives every day from the more than 600,000 designers who visit his three blogs (Logo Design Love, Identity Designed, and DavidAirey.com) each month. How do I find new clients? How much should I charge for my design work? When should I say no to a client? How do I handle difficult clients? What should I be sure to include in my contracts?
Davids readers, a passionate and vocal group, regularly ask him these questions and many more on how to launch and run their own design careers. With this book, David finally answers their pressing questions with anecdotes, case studies, and sound advice garnered from his own experience as well as those of such well-known designers as Ivan Chermayeff, Jerry Kuyper, Maggie Macnab, Eric Karjaluoto, and Von Glitschka. Designers just starting out on their own will find this book invaluable in succeeding in today's hyper-networked, global economy.

Modern painting and sculpture: 1880 to the present at the Museum of Modern Art, John Elderfield, Museum of Modern Art (New York, N.Y), 2004, 0870705768, 9780870705762. This volume, published on the occasion of the seventy-fifth anniversary of The Museum of Modern Art and the opening of its new building, is a comprehensive overview of its painting and sculpture collection. The works selected for this publication reflect the richness of the collection, which is distinguished by masterworks as well as less-well-known examples of painting and sculpture. Accompanying these images
are texts drawn from the Museum's archives and publications, which span a seventy-five-year period. The anthology begins with an excerpt from the 1929 catalogue of the first Museum loan exhibition, which featured the work of Paul Cezanne, Vincent van Gogh, Paul Gauguin, and Georges-Pierre Seurat, and goes on to include excerpts of texts from catalogues of major exhibitions and retrospectives of the work of such artists as Matisse, Picasso, Pollock, Louise Bourgeois, Andy Warhol, and Dieter Roth, to name a few. Modern Painting and Sculpture: 1880 to the Present at The Museum of Modern Art offers the reader a new perspective on the Museum's collection and will be a reference tool for both scholars and the general public for the foreseeable future. The volume includes 340 color plates, a chronology of the major painting and sculpture exhibitions and the dates of acquisitions of the works shown herein, a bibliography, and an index.

Biology of Gila Monsters and Beaded Lizards, Daniel D. Beck , 2005, 0520931602, 9780520931602. No two lizard species have spawned as much folklore, wonder, and myth as the Gila Monster, "Heloderma suspectum," and the Beaded Lizard, "H. horridum" the sole survivors of an ancient group of predacious lizards called the Monstersauria. More like snakes on legs, monstersaurs are a walking contradiction: they are venomous yet don't appear to use their venom for subduing prey; their mottled patterns mingle with the broken shadows and textures of their desert and tropical dry forest habitats, yet their bright open mouths hiss a bold warning that a nasty bite awaits those who advance further. And while Gila Monster venom produces excruciating pain, it also contains a peptide that has become a promising new drug for treating type-2 diabetes. Perhaps the ultimate paradox is that monstersaurs are among the most famous of lizards, yet until quite recently they have remained among the least studied. With numerous illustrations, stunning color photographs, and an up-to-date synthesis of their biology, this book explains why the Monstersauria seems poised to change the way we think about lizards. Daniel D. Beck who has been investigating Gila Monsters and Beaded Lizards for over 22 years teams up here with award-winning wildlife photographer Tom Wiewandt to produce a comprehensive summary of this small but remarkable family of lizards.

Model Building in Mathematical Programming, H. Paul Williams, 2013, 1118506170, 9781118506172. The 5th edition of Model Building in Mathematical Programming discusses the general principles of model building in mathematical programming and demonstrates how they can be applied by using several simplified but practical problems from widely different contexts. Suggested formulations and solutions are given together with some computational experience to give the reader a feel for the computational difficulty of solving that particular type of model. Furthermore, this book illustrates the scope and limitations of mathematical programming, and shows how it can be applied to real situations. By emphasizing the importance of the building and interpreting of models rather than the solution process, the author
attempts to fill a gap left by the many works which concentrate on the algorithmic side of the subject.

_From That to This, Tony Andrews_ , 2012, 146788412X, 9781467884129. When I started to write down what I've experienced over the years it made me realise there could be so much I could do to help other people. I believe for a lot of people fear is the worst, I also believe by me writing this book it has helped me deal with my fears along the way. I think anyone can give their views and opinions that's why I've written FROM THAT TO THIS as I would like people to know how I dealt with my recovery and what lengths I've gone to so I could get where I am today. I was probably an alcoholic by the time I was sixteen and been battling it ever since. The only way I could get my voice heard was by me writing down my experiences through substance misuse and I want people to know from me what it could do to them. What I've written is in my own words, there are mistakes in this book as I had no help with this whatsoever. That's what makes FROM THAT TO THIS so special. It has certainly improved my literacy, as you will read in my forthcoming book the spelling will better and believe me, if you find this book interesting then the next one is even more interesting and longer. FROM THAT TO THIS is only a little taster of what to come. I found all drug users drink alcohol, yet alcoholics didn't take drugs, not at first anyway. Old behaviour could of got me into alot of trouble had I not had self-control.

_Biofabrication: Micro- and Nano-fabrication, Printing, Patterning and Assemblies, Gabor Forgacs, Wei Sun_ , 2013, 1455730041, 9781455730049. Biofabrication is a practical guide to the novel, inherently cross-disciplinary scientific field that focuses on biomanufacturing processes and a related range of emerging technologies. These processes and technologies ultimately further the development of products that may involve living (cells and/or tissues) and nonliving (bio-supportive proteins, scaffolds) components. The book introduces readers to cell printing, patterning, assembling, 3D scaffold fabrication, cell/tissue-on-chips as a coherent micro-/nano-fabrication toolkit. Real-world examples illustrate how to apply biofabrication techniques in areas such as regenerative medicine, pharmaceuticals and tissue engineering. In addition to being a vital reference for scientists, engineers and technicians seeking to apply biofabrication techniques, this book also provides an insight into future developments in the field, and potential new applications. Discover the multi-disciplinary toolkit provided by biofabrication and apply it to develop new products, techniques and therapies. Covers a range of important emerging technologies in a coherent manner: cell printing, patterning, assembling, 3D scaffold
fabrication, cell/tissue-on-chips... Readers develop the ability to apply biofabrication technologies through practical examples

Martha Washington: an American life, Patricia Brady, 2005, 0670034304, 9780670034307. Martha Custis was an attractive, wealthy widow and the mother of two young children when she agreed to marry again in 1759 and begin a new life as Martha Washington. For the next forty-one years, Martha was not only her husband's beloved partner, but also the absolute mainstay of his increasingly powerful and stressful life. Far from the kindly frump of popular mythology, Brady has discovered a decisive, indomitable woman who contributed greatly to the character of the new country in war and peace. In her superb new biography, Patricia Brady at last gives the first first lady her due. Though Martha Washington burned their private correspondence after George's death, Brady draws on a vast array of primary sources to reconstruct the daily texture of the Washingtons' marriage as well as the nuances of Martha's character. Martha Washington was a strong-minded, passionate individual, a woman deeply devoted to her husband, children, and country. This first biography to capture her generosity, humor, grace, and stubborn resourcefulness is sure to win fans of Founding Mothers and anyone curious about women's roles in the shaping of our nation.

Vanishing Voices: The Extinction of the World's Languages, Daniel Nettle, Suzanne Romaine, 2000, 0195136241, 9780195136241. Few people know that nearly 100 native languages once spoken in what is now California are near extinction, or that most of Australia's 250 aboriginal languages have vanished. In fact, at least half of the world's
languages may die out in the next century. What has happened to these voices? Should we be alarmed about the
disappearance of linguistic diversity? The authors of Vanishing Voices assert that this trend is far more than simply
disturbing. Making explicit the link between language survival and environmental issues, they argue that the extinction of
languages is part of the larger picture of near-total collapse of the worldwide ecosystem. Indeed, the authors contend
that the struggle to preserve precious environmental resources—such as the rainforest—cannot be separated from the
struggle to maintain diverse cultures, and that the causes of language death, like that of ecological destruction, lie at the
intersection of ecology and politics. And while Nettle and Romaine defend the world's endangered languages, they also
pay homage to the last speakers of dying tongues, such as Red Thundercloud, a Native American in South Carolina, Ned
Mandrell, with whom the Manx language passed away in 1974, and Arthur Bennett, an Australian, the last person to
know more than a few words of Mbabaram. In our languages lies the accumulated knowledge of humanity. Indeed, each
language is a unique window on experience. Vanishing Voices is a call to preserve this resource, before it is too late.

A well-paid slave: Curt Flood's fight for free agency in professional sports, Brad Snyder, 2006, 067003794X,
9780670037940. After the 1969 baseball season, the St. Louis Cardinals traded their star center fielder Curt Flood to the
Philadelphia Phillies, setting off a chain of events that would change professional sports forever. at the time, there was no
such thing as free agency. Baseball players were bound to their teams for life by a paragraph in the standard player
contract known as the reserve clause. As a result, players could not receive fair market value for their services. More
important, players had no control over where or for whom they played. When a player was traded, he had two choices:
Report to his new team or retire. Curt Flood chose door number three: He sued Major League Baseball for his
professional freedom. Flood was not a typical ballplayer. Artistic, well read, fiercely intelligent, and politically active, Flood
was strongly influenced by the example of Jackie Robinson, who personally recruited Flood in to the civil rights
movement. After twelve years with the Cardinals, Flood's roots had grown deep into the St. Louis soil. He also had
established a photography and portrait-painting business in St. Louis, which he stood to lose by moving to Philadelphia.
Unlike countless others before him, Flood refused to have his life uprooted against his wishes and was willing to sacrifice
his baseball career so that no future player would have to endure a similar indignity. A Well-Paid Slave provides the first in-depth look at Flood's lawsuit and its impact on both professional sports and the man who had the courage to see it through to the highest court in the land.

**Rethinking Iran: International Relations, Modernity and Revolution, Kamran Matin**, 2013, 0415612357, 9780415612357. Critically deploying the idea of uneven and combined development this book provides a novel non-Eurocentric account of Iran's experience of modernity and revolution. Recasting Iranian Modernity presents the argument that Eurocentrism can be decisively overcome through a social theory that has international relations at its ontological core. This will enable a conception of history in which there is an immutable international dimension to social change that prevents historical repetition. This hitherto under-theorized international dimension is, the book argues, particularly manifest in combined patterns of development, which incorporate both foreign and native forms. These hybrid developmental patterns, which are inherently tension-prone, and intellectually evasive of unilinear theories of history, mark Iranian modernity, and fuelled the socio-political dynamics of the 1979 revolution and the rise of political Islam. Challenging solely comparative approaches to the Iranian Revolution that explain it away as either a deviation from, or a reaction to, modernity on the grounds of its religious form, this book will be valuable to those interested in an alternative theoretical approach to modern Iran, the Iranian Revolution, and political Islam, working in the fields of International Relations, Middle East and Islamic Studies, History, Political Science, Political Sociology, Postcolonialism, and Comparative Politics.

**Red Hot Blues, Reggie Nadelson**, 1998, 0312291965, 9780312291969. Artie Cohen is a good-looking New York City cop with a taste for women and jazz and no intention of looking back to the past he left behind twenty-five years earlier in Moscow. In Red Hot Blues, he is faced with a case that leaves him no choice but to confront that past. When a former KGB general is shot dead on live TV, Artie is compelled to take the case; the general was a friend of his father's. Artie doesn't have to go far until he is led into the heart of the Brighton Beach mafia, where the most lethal weapon on the street is rumored to be an elusive substance known as Red Mercury - an atomic weapon that has the terrifying advantage of being pocket-sized. Artie stumbles upon a radioactive trail of atomic smuggling that leads all the way back to Moscow. For Artie to solve this case, he must reclaim his past and return to the home he left behind. It is in Moscow that he finds love, tragedy, and the truth.

**Stealing Fire from Heaven: The Rise of Modern Western Magic, Nevill Drury**, 2011, 0199792518, 9780199792511. The Western magical traditions are currently undergoing an international resurgence. In Stealing Fire from Heaven, Nevill Drury offers an overview of the modern occult revival and seeks to explain this growing interest in ancient magical belief systems. Gnosticism and the Hermetica, the medieval Kabbalah, Tarot and Alchemy, and more recently, Rosicrucianism and Freemasonry, collectively laid the basis for the modern magical revival, which first began to gather momentum in Europe at the end of the nineteenth century. Western magic has since become increasingly eclectic, drawing on such diverse sources as classical Greco-Roman mythology, Celtic cosmology, Kundalini yoga and Tantra, shamanism, chaos theory, and the various spiritual traditions associated in many different cultures with the Universal Goddess. Drury traces the rise of various forms of magical belief and practice, from the influential Hermetic Order of the Golden Dawn to the emergence of Wicca and Goddess worship as expressions of contemporary feminine spirituality. He also explores Chaos Magick and the occult practices of the so-called Left-Hand Path, as well as twenty-first-century magical forays into
cyberspace. He believes that the rise of modern Western magic stems essentially from the quest for personal spiritual transformation and direct experience of the sacred—a quest which the trance occultist and visionary artist Austin Osman Spare once referred to as "stealing fire from heaven." Considered in this light, Drury argues, modern Western magic can be regarded as a form of alternative spirituality in which the practitioners seek direct engagement with the mythic realm.

The Industrial Revolution: 1760-1830, T. Thomas Southcliffe Ashton, 1997, 0192892894, 9780192892898. The Industrial Revolution has sometimes been regarded as a catastrophe which desecrated the English landscape and brought social oppression and appalling physical hardship to the workers. In Ashton's classic account, however, it is presented as an important and beneficial mark of progress. In spite of destructive wars and a rapid growth of population, the material living standards of most of the British people improved, and the technical innovations not only brought economic rewards but also provoked greater intellectual ingenuity. Lucidly argued and authoritative, this book places the phenomenon of the Industrial Revolution in a stimulating perspective. A new preface by Pat Hudson surveys recent research in the areas focused on by Ashton and a completely updated bibliography ensures that this book will continue to be of value to modern readers for many years to come.

Solvency: Models, Assessment and Regulation, Arne Sandstrom, 2005, 142003488X, 9781420034882. Until now there were no published analyses of the recent solvency work conducted in Europe, specifically the risk categories proposed by the International Actuarial Association (IAA). Answering the insurance industry's demand in the wake of the EU Solvency II project, Solvency: Models, Assessment and Regulation provides a concrete summary and review of solvency and inspires additional work in the field. Following an introduction to the concept, the first section of the book provides a historical review of solvency, detailing solvency regulation and accounting within the EU. A review of the steps leading to Solvency II looks at accounting, supervision, the actuarial field, the first phase of Solvency II, international approaches to banking, and the solvency systems of 12 major nations. The second section explores the current basis for solvency modeling, focusing on the valuation of assets and liabilities, dependency and various conservative approaches, as well as a baseline and benchmark approach. This section also provides examples of risk structure and the effects of diversification. The final section discusses groups and internal modeling as it relates to EU Solvency II. It addresses insurance groups, financial conglomerates, reinsurance, the importance of internal modeling and stress testing, and the current state of the second phase of EU Solvency II.

Nijinsky: A Life, Lucy Moore , 2013, 1846686180, 9781846686184. 'He achieves the miraculous,' the sculptor Auguste Rodin wrote of Vaslav Nijinsky. 'He embodies all the beauty of classical frescoes and statues'. Like so many since, Rodin recognised that in Nijinsky classical ballet had one of the greatest and most original artists of the twentieth century, in any genre. And his life is the stuff of legends: a story of great beauty and great tragedy. Immerged in the world of dance from his childhood, he found his natural home in the Imperial Theatre and the Ballets Russes, and a powerful sponsor in Sergei Diaghilev - until a dramatic and public failure ended his career and set him on a route to madness. As a dancer, he was acclaimed as godlike for his extraordinary grace and elevation, but the opening of Stravinsky's The Rite of Spring saw furious brawls between admirers of his radically unballetic choreography and horrified traditionalists. Though 2013 marks the Rite's centenary, Nijinsky's story has lost none of its power to shock, fascinate and move. Adored and reviled in his lifetime, his phenomenal talent was shadowed by schizophrenia and an intense but destructive relationship with his lover, Diaghilev. 'I am alive' he wrote in his diary, 'and so I suffer'. In the first biography for forty years, Lucy Moore examines a career defined by two forces - inspired performance and an equally headline-grabbing talent for controversy.

The Hound of the Baskervilles, Arthur Conan Doyle , 2008, 0141034327, 9780141034324. Some blame the sudden death of Sir Charles Baskerville on the legend of a fearsome and ghostly hound that is said to have haunted his Devonshire family for generations. So when the services of famed detective Sherlock Holmes are engaged to ensure the safety of Baskerville heir Sir Henry -- recently arrived from America -- Dr Watson is surprised to find his friend dismissive of the matter. In fact, Watson is dispatched alone to accompany Sir Henry to Baskerville Hall in Devon while Holmes deals with
another case. Yet Watson finds the wild moors are a far cry from the orderly streets of London, and in the cold night a savage and bestial howl may be heard ...

_First Ladies: From Martha Washington to Michelle Obama, Betty Caroli_, 2010, 019539285X, 9780195392852. Betty Boyd Caroli’s engrossing and informative First Ladies is both a captivating read and an essential resource for anyone interested in the role of America's First Ladies. This expanded and updated fourth edition includes Laura Bush’s tenure, Hillary Clinton’s 2008 presidential bid, and an in-depth look at Michelle Obama, one of the most charismatic and appealing First Ladies in recent history. Covering all forty-one women from Martha Washington to Michelle Obama and including the daughters, daughters-in-law, and sisters of presidents who sometimes served as First Ladies, Caroli explores each woman's background, marriage, and accomplishments and failures in office. This remarkably diverse lot included Abigail Adams, whose "remember the ladies" became a twentieth-century feminist refrain; Jane Pierce, who prayed her husband would lose the election; Helen Taft, who insisted on living in the White House, although her husband would have preferred a judgeship; Eleanor Roosevelt, who epitomized the politically involved First Lady; and Pat Nixon, who perfected what some have called "the robot image." They ranged in age from early 20s to late 60s; some received superb educations for their time, while others had little or no schooling. Including the courageous and adventurous, the emotionally unstable, the ambitious, and the reserved, these women often did not fit the traditional expectations of a presidential helpmate. Here then is an engaging portrait of how each First Lady changed the role and how the role changed in response to American culture. These women left remarkably complete records, and their stories offer us a window through which to view not only this particular sorority of women, but also American women in general. "Impressive...Caroli's profiles and observations of American first ladies and their relationship to the media are intelligent and perceptive." --Philadelphia Inquirer

**General James Longstreet: The Confederacy's Most Controversial Soldier, Jeffry D. Wert**, 1994, 0671892878, 9780671892876. General James Longstreet was Lee's senior lieutenant in the Army of Northern Virginia and the general whose conduct at the Battle of Gettysburg remains a topic of heated debate more than 130 years later. Longstreet first saw action in the Mexican War. He joined the Confederacy soon after the Civil War began and fought in nearly every campaign of Lee's army as well as in a major campaign in the Western theater. He led troops from the brigade to the corps level, at First and Second Manassas, Seven Pines, Seven Days, Antietam, Fredericksburg, Gettysburg, the Wilderness, and Petersburg. He scored a decisive victory at Chickamauga. And at war's end he stood alongside Lee at the surrender ceremony at Appomattox. Longstreet led the First Corps under Lee, outranking the better-known commander of the Second Corps, Stonewall Jackson. "Old Pete," as his soldiers called him, was a superb battlefield commander with great tactical skill. But he has long been blamed, especially in the South, for the crucial Confederate defeat at Gettysburg. Jeffry Wert argues that Longstreet opposed Lee's ill-fated frontal assault on July 3 and that, had Lee followed
Longstreet's advice to take a more defensive posture, the battle might have turned out differently. After the war, Longstreet joined the Republican Party and became a political apostate in the South during the Reconstruction era. When he died in relative obscurity in 1904, only his old soldiers remembered him. This is the first full-scale biography of Longstreet in forty years, and it returns him to his position of central importance in the Civil War. Jeffry D. Wert's extensive research included unpublished memoirs, diaries, and letters from several archives.

In search of the promised land: a slave family in the Old South, John Hope Franklin, Loren Schweninger, 2006, 0195160878, 9780195160871. The matriarch of a remarkable African American family, Sally Thomas went from being a slave on a tobacco plantation, to a "virtually free" slave who ran her own business and purchased one of her sons out of bondage. In Search of the Promised Land offers a vivid portrait of the extended Thomas-Rapier family and of the life of slaves before the Civil War. Based on family letters as well as an autobiography by one of Thomas' sons, this remarkable piece of detective work follows a singular group as they walk the boundary between slave and free, traveling across the country in search of a "promised land" where African Americans would be treated with respect. Their record of these journeys provides a vivid picture of antebellum America, stretching from New Orleans to St. Louis, from the Overland Trail to the California Gold Rush, and from Civil War battles to steamboat adventures. John Hope Franklin and Loren Schweninger weave a compelling narrative that illuminates the larger themes of slavery and freedom. To a remarkable degree, this small family experienced the full gamut of slavery, witnessing everything from the breakup of slave families, brutal punishment, and runaways, to miscegenation, insurrection panics, and slave patrols. They also illuminate the hidden lives of "virtually free" slaves, who maintained close relationships with whites, maneuvered within the system, and gained a large measure of autonomy. The Thomas-Rapiers were keen observers of the human condition. Through the eyes of this exceptional family and the indomitable black woman who held them together, we witness aspects of human bondage otherwise hidden from view.

**Stories in the Time of Cholera: Racial Profiling During a Medical Nightmare, Charles L. Briggs, Clara Mantini-Briggs**, 2003, 0520230310, 9780520230316. Cholera, although it can kill an adult through dehydration in half a day, is easily treated. Yet in 1992-93, some five hundred people died from cholera in the Orinoco Delta of eastern Venezuela. In some communities, a third of the adults died in a single night, as anthropologist Charles Briggs and Clara Mantini-Briggs, a Venezuelan public health physician, reveal in their frontline report. Why, they ask in this moving and thought-provoking account, did so many die near the end of the twentieth century from a bacterial infection associated with the premodern past? It was evident that the number of deaths resulted not only from inadequacies in medical services but also from the failure of public health officials to inform residents that cholera was likely to arrive. Less evident were the ways that scientists, officials, and politicians connected representations of infectious diseases with images of social inequality. In Venezuela, cholera was racialized as officials used anthropological notions of "culture" in deflecting blame away from their institutions and onto the victims themselves. The disease, the space of the Orinoco Delta, and the "indigenous ethnic group" who suffered cholera all came to seem somehow synonymous. One of the major threats to people's health worldwide is this deadly cycle of passing the blame. Carefully documenting how stigma, stories, and statistics circulate across borders, this first-rate ethnography demonstrates that the process undermines all the efforts of physicians and public health officials and at the same time contributes catastrophically to epidemics not only of cholera but also of tuberculosis, malaria, AIDS, and other killers. The authors have harnessed their own outrage over what took place during the epidemic and its aftermath in order to make clear the political and human stakes involved in the circulation of narratives, resources, and germs.

Tantra Song: Tantric Painting from Rajasthan, Franck Andr Jamme, 2011, 0979956277, 9780979956270. This collection of rare, abstract Tantra drawings was conceived when the French poet Franck Andre Jamme stumbled on a small catalogue of Tantric art at a Paris bookseller's stall. The volume included writings by Octavio Paz and Henri Michaux, and Jamme became fascinated by the images' affinity with modern art and poetry. He read voraciously and even journeyed to India, searching in vain for Tantric practitioners, until a bus accident on the road to Jaipur sent him home to France with serious injuries. When he returned a few years later, he met a soothsayer who proclaimed that Jamme had now paid sufficient tribute to the goddess Shakti and required him to take a vow: he must visit the "tantrikas" alone or only in the company of a loved one. Since then, Jamme has gained extraordinary access to very private communities of adepts and their intensely beautiful works. These contemporary, anonymous drawings from Rajasthan are unlike the more familiar strands of Tantric art--the geometric yantras, or erotic illustrations of the "Kama Sutra." The progeny of seventeenth-century illustrated religious treatises, these drawings have evolved into a distinct visual lexicon designed to awaken heightened states of consciousness and are imbued with specific spiritual meanings (e.g. spirals and arrows for energy, an inverted triangle for Shakti). A revelatory volume on this occluded genre of Indian art, "Tantra Song" is a convergence of east and west, the spiritual and the aesthetic, the ancient and the modern. Franck Andre Jamme is the author of more than a dozen volumes of poetry. His translated works (by John Ashbery, Charles Borkuis, David Kelley and others) include "New Exercises," "Another Silent Attack," "The Recitation of Forgetting" and "Extracts of the Life of a Beetle." He has collaborated on books with a number of artists including Philippe Favier, Suzan Frecon, Acharya Vyakul and Hanns Schimanski. A specialist in Art Brut, Tantric and tribal art of India, he has participated in exhibitions at Centre Pompidou, Beaux-Art de Paris and The Drawing Center, among others.

Complex Analysis with Applications, Richard A. Silverman, 1973, 0486647625, 9780486647623. This volume contains the basics of what every scientist and engineer should know about complex analysis. A lively style combined with a
simple, direct approach helps readers grasp the fundamentals, from complex numbers, limits in the complex plane, and complex functions to Cauchy's theory, power series, and applications of residues. 1974 edition.

Calvin in Context: Second Edition, David Steinmetz, 2010, 0199742154, 9780199742158. The book illuminates Calvin's thought by placing it in the context of the theological and exegetical traditions—ancient, medieval, and contemporary— that formed it and contributed to its particular texture. Steinmetz addresses a range of issues almost as wide as the Reformation itself, including the knowledge of God, the problem of iconoclasm, the doctrines of justification and predestination, and the role of the state and the civil magistrate. Along the way, Steinmetz also clarifies the substance of Calvin's quarrels with Lutherans, Catholics, Anabaptists, and assorted radicals from Ochino to Sozzini. For the new edition he has added a new Preface and four new chapters based on recent published and unpublished essays. An accessible yet authoritative general introduction to Calvin's thought, Calvin in Context engages a much wider range of primary sources than the standard introductions. It provides a context for understanding Calvin not from secondary literature about the later middle ages and Renaissance, but from the writings of Calvin's own contemporaries and the rich sources from which they drew.
